The MBT Philosophy

To our End Customers,

This catalog is full of high quality, high performance products backed by our unconditional Guarantee. If our products do not meet your expectations we take them back no questions asked! We think you'll find a variety of products in these pages that will help keep your company in compliance with current regulations but more importantly protect your employees and the environment. We have a global network of stocking distributors to help meet your delivery needs wherever you operate.

Derek Yurgaitis
President

To Distributor partners,

MBT believes in partnership and strategic distribution. Relationships that allow us to pull costs from the channel while taking share together. MBT will continue to innovate and expand the market for our products leading to profitable growth for our customers. We believe that within the pages of this catalog there are more than products. The items here represent an opportunity for our companies to work together with our mutual customers to provide safe work environments, increase productivity, reduce waste and decrease overall costs. If your current suppliers aren't living up to these ideals we would appreciate the chance to earn your trust.

Cost Savings

More and more industries are using a variety of absorbents for the control and clean-up of oils, industrial liquids and chemicals in their workplace. They reduce cost, increase productivity and improve safety. See why MBT absorbents are the product of choice!

The examples below show how much money an average facility can save by switching their spill control products to MBT absorbents. We've used GFMF100 absorbents as an example - now fill in your current spill control solution to find out how much you could be saving!

Absorbent Materials	Clay	Leading competitor	MBT Absorbents	Your costs
Cost per bag or box	\$5.00	\$84.00	\$80.00

NEW PRODUCTS

Spill control products to keep your workplace clean, safe and in compliance

New Products

Water-activated flood protection for home and work.

5 FT Flood Barrier

10 FT Flood Barrier

MBT Flood Barrier is a disposable re-usable super absorbent barrier designed to form a water-tight barrier protecting homes and businesses from the flow of flood water.

- Super Absorbent
- Small & lightweight
- Easy to store before use
- Disposable
- Stackable
- Inflates in minutes

Barriers are lightweight, quick to deploy and ready-filled to provide protection against For long term flooding or temporary flash floods.

BENEFITS:

- Easy to store when not in use & easy to unroll in an emergency
- Can be stacked for added height or curved round obstacles
- Protects any door threshold. Great for driveways and gateways

SUGGESTED USES:

Water-activated **FLOOD PROTECTION** for personal and commercial property

HOMES

SHOPS

GARAGES

DOORS

GATEWAYS

GARDENS

CAUTION when handling as the products are heavy when wet.

Plumber's Pad: Super absorbent sheets for catching leaks, drips and spills.

Plumber's Pad is a disposable super absorbing floor pad designed to protect floors and hard surfaces from water based, overhead leaks.

BENEFITS:

- Ideal for tight spaces where buckets won't fit
- Can be left in place to absorb leaks – no need for repeated mopping
- Easy to position effectively
- Surfaces are quickly made safe from slip hazards
- Maintain clean and dry working for public-access areas
- Avoids lasting damage to flooring
- Easy disposal in standard waste, liquid turns to gel – no drips or cross contamination

SUGGESTED USES:
Protection from DRIPS, LEAKS and PLUMBING ISSUES:

PIPEWORK RADIATORS WASHING MACHINES
TOILETS BATHROOMS KITCHENS

Spill control products to keep your workplace clean, safe and in compliance

New Products

Thirsty pads soak up drips, leaks and spills.

MBT Thirsty Pad is a disposable super-absorbing floor pad designed to protect floors and hard surfaces from water based leaks and spills. Thirsty Pads use a super-absorbent polymer that continues to soak up to 1/2 gallon of water per pad. Leave in place to protect floors and furnishings until the leak is fixed. If the pad becomes completely saturated, just remove and replace with a fresh one.

SUGGESTED USES:
Protection from
DRIPS, LEAKS and PLUMBING ISSUES:

PIPEWORK RADIATORS WASHING MACHINES
TOILETS CEILINGS KITCHENS

BENEFITS:

- Ideal for tight spaces where buckets won't fit
- Can be left in place to absorb leaks, no need for repeated mopping
- Surfaces are quickly made safe from slip hazards
- Maintain clean and dry working for public-access areas
- Avoids lasting damage to flooring
- Easy disposal - liquid turns to gel, no drips or cross contamination

- Highly visible hazard warning material
- Made from reclaimed materials
- Super absorbent
- Protects from water damage
- Disposable
- Absorbs water based liquids

Spill control products to keep your workplace clean, safe and in compliance

Spilltration® SmooshKit™

Our new SmooshKit™ is all about space savings. MBT's partner Halen Hardy's patented smooching technology solves the common space constraints that many fleet and remote industries face.

This proprietary process compresses our innovative Spilltration® material into compact packages that can fit anywhere.

Store SmooshKits™ in the smallest of spaces:

- The seat back of a pickup truck
- Glove boxes, toolboxes, and other utility containers
- Under, behind, or between your seats

Xtra Sticky Mat provides dry, safe walkways

Make sure your business really STICKS to a floor safety program!

Our XSMB Mat is an industry standard absorbent mat featuring with a sticky backing helps to keep this matting in place, but also allows for easy removal or replacement when no longer needed.

Highly Absorbent – High durability, fast drying and easy to clean. The XSMB mats absorb oil, water and solvents at the same time.

Stays Where You Place it – The XSMB mat with adhesive backing will stay put when applied to a clean surface.

Xtra Tough – It withstands both foot and forklift traffic without shifting, rippling, or bunching; heavyweight, fast drying, and easy to clean.

Know what you are absorbing.

Universal Indoor Spill Control

Use all-purpose absorbents to clean-up oils, coolants, solvents and water-based fluids anywhere in your facility. Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects – they are your first choice for indoor spill control. Plus, their gray color masks spills and stains, helping you resist the urge to pick up the absorbent before it is fully saturated.

- Gray universal sorbents absorb coolants, solvents, oils, gasoline, vegetable oil, kerosene, latex paint and other water-based fluids.

Oil Only Indoor/Outdoor Sorbents

These absorbents are specialized for oil and other petroleum-based spills, including paints and other non-water soluble chemicals. These absorbents will not absorb water and will float indefinitely.

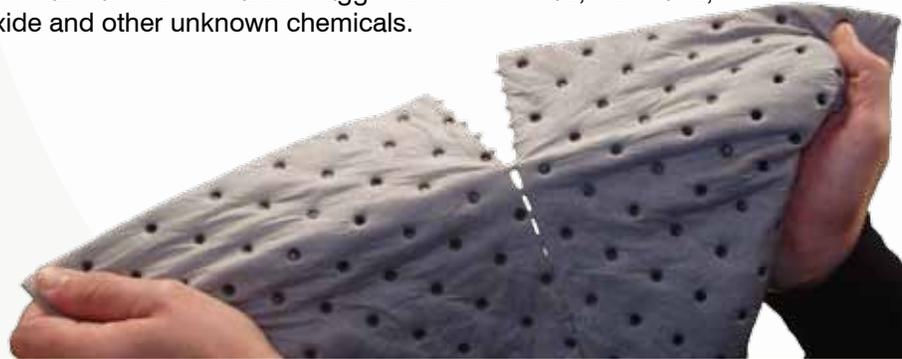

- White and blue oil only sorbents absorb hydraulic oil, motor oil, brake fluid, cooking oil, turpentine and other oil-based fluids.

Chemical Absorbents

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydrofluoric acid, and are chemically inert, so they will not react with aggressive fluids.

- Green or yellow Hazmat sorbents absorb aggressive chemicals, citric acid, sodium hydroxide and other unknown chemicals.

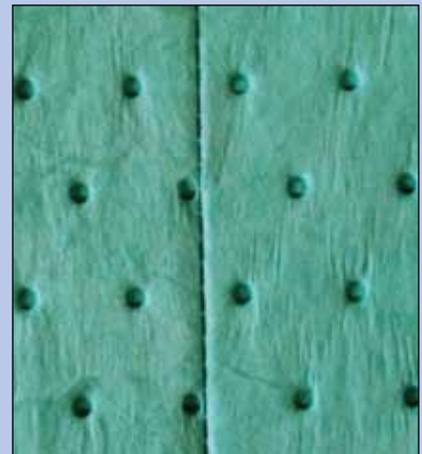

Universal MRO

Oil Only

Hazmat

Choosing your absorbents

Use our easy to use Sorbent Selection Guide to help choose the right absorbent for your specific application.

1. Determine the type of liquids to be absorbed.

- Oils, coolants, solvents and water (Gray Universal)
- Oil, turpentine, oil based liquids (White or blue oil only)
- Aggressive chemicals, acids, bases and unknown liquids (Yellow or green hazmat)

2. Identify your absorbent application.

- Wiping, dripping or foot traffic areas (Pads, rolls, socks and pillows)
- Barrier-backed or heavy traffic areas (mats and rugs)
- Emergency spill response (spill containment & spill kits)

3. Determine the amount of liquid to be absorbed.

- Small (lightweight)
- Medium (middleweight)
- Large (heavyweight)

Use our checklist to help you to choose the right absorbent.

- Check product type
- Check durability
- Check absorbency

GRAY UNIVERSAL PADS AND ROLLS

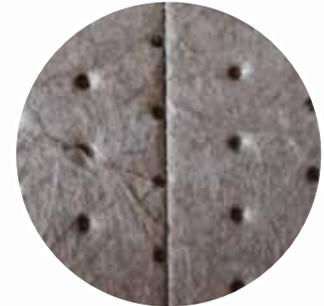

Absorbs oil, water, glycols, gasoline, diesel, hydraulic fluids and most chemicals

Gray universal pads and rolls absorbs oils, coolants, solvents and more.

Gray Dimpled

Gray dimpled meltblown polypropylene sorbents are single-layer, economical sorbents. We pass this media through our thermal bonder, which ties down loose fibers. Dimpled sorbents are also perforated, which promotes waste minimization.

- Dimpled for fast wicking.
- Perforated, so you use only what you need.
- Highly Absorbent.

Gray Dimpled Universal Pads

Spunbond

Spunbond meltblown polypropylene sorbents have an exceptionally strong, ultra-light nonwoven that resembles polyester. This fabric's high level of tensile strength and durability does not hinder its absorption capabilities. Thicker fluids penetrate the spunbond membrane and saturate the highly absorbent meltblown center layer.

- Dimpled for fast wicking.
- Perforated, so you use only what you need.
- Highest Durability
- Low linting

GRAY FINE FIBER & CAMOUFLAGE PADS & ROLLS

Absorbs oil, water, glycols, gasoline, diesel, hydraulic fluids and most chemicals

Fine Fiber

Fine fiber meltblown polypropylene sorbents have a soft, super-absorbent fiber that resembles tissue paper. We thermally bond a thin layer to each side of our standard, coarse-fiber, meltblown polypropylene. These composites absorb quickly, remove the sheen, and grip cement floors. GFMF is our most popular universal sorbent.

- Highest Quality, Fast Wicking and Great Durability.
- Perforated, so you use only what you need.

Hide the Mat not the Mess with our Industrial Camo Mat!

Our NEW Industrial Camouflage mats are great for hiding fluid stains and foot prints. The Hi-Vis Orange infused into the camo pattern allows better visibility even in low light conditions further preventing slips trips and falls! The stiff, durable, camouflage side faces up, and the soft, tacky, fine fiber side goes down. Perforated for ease of use, tear off what you need. Lay it down in walkways or in front of work stations, and get back to work... Safely!

- Lug shapes hide foot prints better
- Hi Vis Orange illuminates the Mat

Spilltration® Oil Only Absorbents work outdoors—rain or shine.

Husky Pads, Rugs and Strips absorb oil and fuels spills fast

Ultra-thick Husky Pads are engineered for the first line of defense for the outdoors to absorb oils and fuels while allowing clean water to filter through.

Husky Pads are smooch-packed to compress and fit in areas up to 80% smaller than traditional oil-only sorbents.

FEATURES AND BENEFITS:

- Prevent oily water from reaching storm drains and waterways
- Avoid costly clean-up costs & fines by keeping spills in a small footprint
- Made from recycled materials, helps you in your sustainability initiatives.
- Reusable - Substantially reduce your materials and disposal costs

RECOMMENDED USES: To absorb hydraulic fluids, transmission fluids, diesel fuel, gasoline, motor oils, lubricants, and other hydrocarbons while filtering water at the same time.

Spilltration® products are made entirely from post consumer and post industrial waste

- Helps you in your sustainability initiatives

Shammy Towels are super-absorbent and reusable.

Spilltration® Shammy Towels

Shammy towels are designed for final clean-up detail on oil-based leaks & spills. Towels are super-sorbent for the outdoors to absorb oils while allowing clean water to filter through. They are smooch-packed to compress and fit in areas up to 80% smaller than traditional oil-only sorbents.

FEATURES AND BENEFITS:

- Designed to work in the rain
- Compresses to fit in small areas
- Made from recycled materials, helps you in your sustainability initiatives.
- Reusable - Substantially reduce your materials and disposal costs

Spilltration® Shammy Towels

Item #	Description	Size	Abs/Case	Pkg /Case	Case Wt	Case/Pallet
SPL009	Oil Shammy (50/pack)	10" x 16"	29	10	18 lbs	20
SPL003	Oil Shammy (50/pack)	16" x 16"	47	10	38 lbs	16

Husky Polyback Rugs absorbs spills and prevents oil from leaking through.

Spilltration® Husky Polyback Rugs with laminated plastic backing are engineered to absorb oils in the outdoors... rain or shine. Spilltration® fibers on PolyBacked Husky Rug absorb oil and filter water. PolyBacking prevents oil from leaking through.

Traditional white pads are thin and only absorb small amounts of leaky transformer oil. Spilltration® Husky Rugs are laminated with a sturdy plastic backing to prevent oil from leaking through. Best of all the Spilltration® Rugs allow rain water to filter through. Oil Sticks. Water Wicks.

RECOMMENDED USES: To absorb di-electric oils (for transformers), hydraulic fluids, transmission fluids, diesel fuel, gasoline, motor oils, lubricants, and other hydrocarbons while filtering water at the same time.

Spilltration® Husky Polyback Rugs

Item #	Description	Size	Abs/Case	Pack/Case	Case/Wt	Case/Pallet
SPL027	Polyback Rugs (1/pack)	32" x 48"	3.5	9	17 lbs	22
SPL019	Polyback Roll (mini)	32" x 25'	22	1	16 lbs	22
SPL016	Polyback Roll	64" x 100'	176	1	17 lbs	1

Spilltration® Polybacked Husky Rugs are engineered to remove oils from rain and runoff water in land-based applications.

Each Polybacked Husky Rug absorbs 3.5 gallons of hydrocarbons.

OIL ONLY PADS AND ROLLS

Absorbs oil (hydrocarbon based fluids) and repels water.

Oil Only Absorbents

Oil Only Sorbents

Meltblown Technologies offers a variety of premium polypropylene oil only absorbents specifically designed for oil and other petroleum-based spills, oil only pads and rolls will repel water and float indefinitely.

MBT oil only sorbents are unaffected by temperature and impervious to rot and mildew, making them ideal for outdoor use.

Applications:

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine Oils, lubricants
- Transmission fluids
- Cooking oils
- Oil-based paints and solvents
- Gasoline, diesel and aircraft fluids

Perforated to reduce waste.
Use only what you need.

Dimpled for fast wicking
of spilled liquids.

3-ply construction with
abrasion resistant outer
scrim and melt-blown
polypropylene inner layers.

White color
makes absorbed
liquids easy
to see. White
also signifies
it selectively
absorbs oil,
repels water.

Indoor Use

Outdoor Use

Specialty Applications

Absorbs oil (hydrocarbon based fluids) and repels water.

Oil Only Absorbents

MBT oil only sorbents selectively absorb oil and petroleum based fluids.

- High performance oil only sorbents repel water and float indefinitely, remaining intact even when saturated with oil.
- Use white dimpled sorbents when added durability and reduced linting is needed.
- Pads and rolls are perforated to reduce waste by using only what you need.

Indoor pads and rolls

- Great for drips, spills and wiping applications around machinery and equipment.
- Ideal for use for high tech industries, pharmaceutical, paper industries, food processing, automotive and precision engineering applications

Outdoor pads and rolls

- Economical single ply construction
- Great for oil spill cleanup, selectively absorbs oil and repels water.

Marine Sorbents

Meltblown Technologies marine specialty absorbents are designed to float on water and contain or absorb a wide variety of marine fuels and oils. From containment to booming and skimming operations, these absorbents will soak up unwanted fluids on lakes, rivers, streams and coastal shorelines.

- Marine absorbent products are made for high absorbency and rapid deployment in demanding emergency situations.
- Marine sorbents include white oil only pads, rolls, absorbent booms, containment booms, sweep and pillows.

OIL ONLY PADS AND ROLLS

Absorbs oil (hydrocarbon based fluids) and repels water.

Standard Polypropylene

Meltblown standard oil only sorbents are typically used to skim oil off of water. The open fiber construction draws hydrocarbon-based fluids into the center of the pads and/or rolls, while repelling water. This type of media is our most economical family of pads and rolls, yet it absorbs quicker and more than the other product families.

- Antistatic absorbents for use in dry, cold climates and where regulations require
- Selectively absorbs oil, repels water and is ideal for outdoor use

Dimpled Oil Only Sorbents

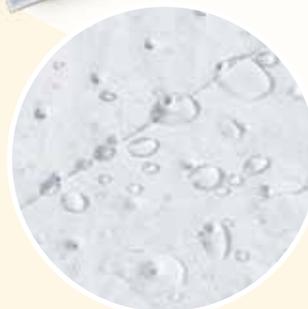

Meltblown dimpled oil only sorbents are very similar to our standard meltblown products. We pass this media through our thermal bonder, which ties down loose fibers. Dimpled sorbents are also perforated, which promotes waste minimization.

- Selectively absorbs oil, repels water
- Highly absorbent white products also show where liquids are absorbed

Absorbs oil (hydrocarbon based fluids) and repels water.

Fine Fiber Dimpled Oil Only Sorbents

Meltblown fine fiber oil only sorbents have a soft, super-sorbent fiber that resembles tissue paper. We thermally bond a thin layer to each side of our standard, coarse-fiber, meltblown polypropylene. Its most common application is for air and liquid filtration, but we use it as a covering for various absorbent composites. They absorb quickly, remove the sheen, and grip cement floors.

Oil Only Absorbents

Spunbond Oil Only Sorbents

Meltblown spunbond oil only sorbents have an exceptionally strong, ultra-light nonwoven that resembles polyester. This fabric's high level of tensile strength and durability do not hinder its absorption capabilities. Thicker fluids penetrate the spunbond membrane and saturate the highly absorbent meltblown center layer.

MARINE OIL ONLY BOOMS AND SWEEPS

Absorbs oil (hydrocarbon based fluids) and repels water.

Oil Spill Absorbent Booms

MBT absorbent booms are used to surround oil spills on the surface of water. They absorb and contain spilled hydrocarbons while repelling water. Pads, rolls, and sweeps are deployed in conjunction with booms for full clean-up.

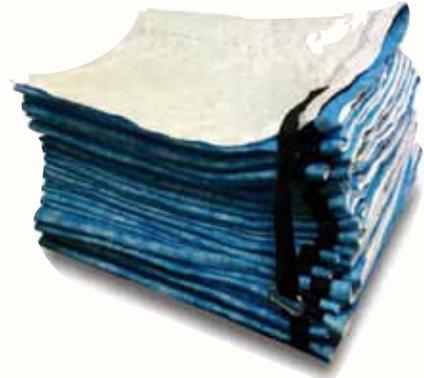

Oil Spill Absorbent Booms

Item #	Description	Size	Abs/Pkg	Pkg Qty	Pkg Wt	Pallet Qty
Oil Only Booms

Oil Spill Absorbent Sweep

MBT absorbent sweeps are used to remove the final sheen off a marine-based oil spill. Snap hooks on each end attach to fasteners on boats, and then it is swept across the spill. Spunbond cover keeps sweep from tearing.

Oil Spill Absorbent Sweep

Item #	Description	Size	Abs/Pkg	Pkg Qty	Pkg Wt	Pallet Qty
S1900	White Absorbent Sweep	19" x 100'	16.6 Gal	1	9.7 lbs	42

Skimming Bilge Booms

SKIMMING BILGE BOOMS - Bilge booms are best used in leisure boat bilges. The rope loop anchors the boom while it absorbs any tramp oil.

SKIMMING BOOM PILLOWS - Boom pillows are huge, high capacity bilge/sump absorption products. An O-ring on one end is used to anchor it while it absorbs any tramp oil.

Skimming Bilge Booms and Boom Pillows

Item #	Description	Weight	Size	Abs/Pkg	Pkg Qty	Pkg Wt	Pallet Qty

B10PSN	White Boom Pillows	Heavy	8" x 18"	19 Gal	10	27 lbs	16

Absorbs oil (hydrocarbon based fluids) and repels water.

Pom Pom Sorbents - OIL ONLY

Pom Pom sorbents are flat, chemical resistant filaments in half-pound units that float in water and entrap heavy oil. Pom pom sorbents are reusable after draining or dousing with #1 and #2 weight oils. Extracted oil can be recycled or downgraded as fuel oil.

- Use the drag net as a sweep between tow boats or deployed along a shoreline.

Pom Pom Sorbents

Item #	Description	Abs/Pkg	Pkg Qty	Pkg Wt	Pallet Qty

PP30-L	30 nets loose (no rope)	27.4 Gal	30	15 lbs	24

Containment Booms

Containment booms are a cost-effective solution containment of oil spills on water. Containment booms are also used as barriers in holding ponds to retain waste and debris.

Contractor boom is ideal for use for rivers and streams where fast currents may exist that require a strong and manageable containment boom.

- 22 oz PVC fabric
- Universal ASTM connectors
- Easily stored and transported

Containment Booms

Item #	Description	Length	Pkg Qty	Pkg Wt	Pallet Qty

CB46	Swamp boom - 4"float, 6" Skirt, 1/4" Chain	50'	1	61 lbs	5

White pads for oil spill cleanup in marine applications.

White Oil Only Pads

Our white standard meltblown series (WM) pads and rolls are used in conjunction with these oil spill response sorbents.

Check out all styles on page 15.

HAZMAT PADS AND ROLLS / PILLOWS

Absorbs oils, collants, solvents, water and aggressive chemicals

Hazmat Absorbents and Pillows

HAZMAT PADS AND ROLLS

MBT fine fiber meltblown polypropylene sorbents can safely absorb most hazardous chemicals.

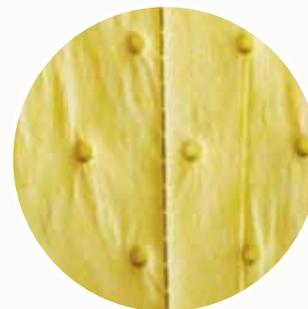

Use these pads and rolls in chemical storage areas or in laboratories. Be sure to keep proper handling apparel and approved disposal containers in close proximity.

MBT green and yellow composites perform the same functions. These products can also be used for MRO applications.

Absorbent Socks

MBT absorbent socks can be used in numerous ways. Our hazmat socks surround toxic chemical storage areas, general socks protect drains and keep fluids from seeping into walkways, and oil only socks are used to skim oil off of water and to keep water from entering doorways. Socks are available in multiple lengths and case counts.

- Wrap socks around machines to stop leaks from reaching the floor.
- Spunbond outer sleeve with polypropylene filler
- Wringable for reclaiming fluids

STICKY ABSORBENTS

Absorbent mat that stays put providing a safe walkway

Make sure your business really STICKS to a floor safety program!

Xtra Sticky Mat

Our XSMB Mat is an industry standard absorbent mat featuring with a sticky backing helps to keep this matting in place, but also allows for easy removal or replacement when no longer needed.

Highly Absorbent

Great absorbency combined with high durability. fast drying and easy to clean. The XSMB mats absorb oil, water and solvents at the same time.

Stays Where You Place it!

Our adhesive backing holds the mat where you place it! The XSMB mat will stay put when applied to a clean surface.

Xtra Tough

Being heavyweight, it withstands both foot and forklift traffic without shifting, rippling, or bunching; heavyweight, fast drying, and easy to clean.

Goes anywhere you need it!

Its easy cut and apply so it fits into all types and shapes and work surfaces.

From Industrial/Manufacturing, Machine Shops, Construction and Auto Repair, to Food Service, Grocery, Restaurants, Car Dealerships, Entryways and more, the applications are endless!

ABSORBENT MAT AND RUGS

Absorbent Hi-Vis mats, drum top covers and drip pans

Specialty Absorbents

Hi-Vis Caution Mat Protects Against Slips, Trips & Falls.

CAUTION MAT: Hi-Visibility Safety Absorbent

Our new Hi-Vis line of Caution Mat absorbents provide the best protection against slips, trips and falls.

- Hi-Vis yellow w/caution STF warning
- Spunbond side is abrasion-resistant, great for foot traffic or heavy-duty wiping applications.
- Fine fiber side grips smooth surfaces (like cement) to reduce slips, trips & falls.
- Absorbs most fluids, including oil (hydrocarbon-based fluids), water, glycols, solvents and aggressive fluids
- A perforation helps reduce waste.
- Spunbond-fine fiber composite mats are great dual-purpose sorbents.

Caution Mats – Hi-Vis Absorbents

Item #	Description	Size	Abs/Pkg	Pkg Qty	Pkg Wt	Pallet Qty
General Purpose – Hi-Visibility Yellow (suitable for most industrial applications)						
YSMF100-HV	Hi-Visibility Caution Pad	15" x18"	24.4	100	12.5 lbs	30

GRANSORB	All-purpose absorbent	4	1	30 lbs	65

Neutralizing absorbents

Traction agent/universal sorbent

Turns all types of discarded liquid waste into a non-hazardous solid waste.

Safety sorbent is a blend of all natural ingredients that safely soak up virtually any liquids from any surface. Safety sorbent is 100% pure Amorphous Mineral without any fillers or additives.

Acid neutralizing/indicating/solidifying sorbent

A fast, safe and efficient method to neutralize and absorb acid spills, ACIDSAFE contains an indicator that provides a visible color change to indicate complete neutralization. Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid. When mixture turns purple a second time it has been neutralized to a safe PH range.

Specialty Absorbents

Neutralizing Absorbents

Item #	Description	Gal/Abs Case	Case Qty	Pkg Wt	Pallet Qty
Tracking Agent / Universal Absorbent					
500	Safety Absorbent (2 Qt. Carton)	4	12	33 lbs	60 cases

SS-18	Sphagnum peat moss	17.6	1	18 lbs	50

SPILL KITS

for quick emergency response to handle any type of spill

Spill Kits

Universal All-purpose Spill Kits

Use these all-purpose absorbents to clean-up oils, coolants, solvents and water-based fluids anywhere in your facility. Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects – they are your first choice for indoor spill control. Plus, their gray color masks spills and stains – helping you resist the urge to pick up the absorbent before it is fully saturated.

- Gray universal sorbents absorb coolants, solvents, oils, gasoline, vegetable oil, kerosene, latex paint and other water-based fluids.

Oil Only Spill Kits

These absorbents are specialized for oil and other petroleum-based spills including paints and other non-water soluble chemicals. These absorbents will not absorb water and will float indefinitely.

- White and blue oil only sorbents absorb hydraulic oil, motor oil, brake fluid, cooking oil, turpentine and other oil-based fluids.

Chemical Spill Kits

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydro-fluoric acid, and are chemically inert, so they will not react with aggressive fluids.

- Green or yellow Hazmat sorbents absorb aggressive chemicals, citric acid, sodium hydroxide and other unknown chemicals.

Need a refill for a spill kit?

Just add an 'R' to any spill kit SKU to order a refill of absorbents.

Hazmat Kits

What to do when a spill occurs

When a spill occurs, time is of the essence to make sure a quick and safe clean-up occurs.

Here are some helpful hints to make sure you, your employees and the environment are protected.

1. Risk Assessment

Evaluate the type of material spilled and identify the source. If you are NOT familiar with the liquid and its chemical properties, vacate the area and contact proper authorities.

2. Protective Clothing

Wear the appropriate protective gear for the situation. If the source or the material is not identifiable, assume the worst.

3. Containment

Contain the liquid and seal drains.

4. Stop the Source

Close valves, rotate punctured drums and plug leaks where it is possible and safe to do so.

5. Begin Clean Up

Use MBT absorbents to absorb spilled liquids.

6. Contact Authorities

Report the spill to proper legal authorities in your community. Be sure to fill out all necessary reports in accordance with local laws.

7. Disposal of Used Material

Absorbent materials take on the characteristics of whatever they absorb. Be sure to dispose of used absorbents and spilled liquids in accordance with local laws.

8. Decontaminate

Clean all tools and reusable materials properly before reuse.

9. Restock Materials

Replace absorbent materials and safety equipment used in any clean-up operation.

10. Review Contingency Plans and Procedures!

SPILL KITS

Absorbs oil, water, glycols, gasoline, diesel, hydraulic fluids and most chemicals

SmooshKits are lightweight, compact, convenient, and 500% smaller than other similar kits

Spilltration® SmooshKit™

Our new SmooshKit™ is all about space savings. MBT's partner HalenHardy's patented smooching technology solves the common space constraints that many fleet and remote industries face.

This proprietary process compresses our innovative Spilltration® material into compact packages that can fit anywhere.

SmooshKits are lightweight, compact, convenient, and 500% smaller than other similar kits, giving you an advantage when a spill happens.

Substantially reduce your materials and disposal costs by wringing and reusing Spilltration® products.

You can store SmooshKits™ in the smallest of spaces:

- The seat back of a pickup truck
- Glove boxes, toolboxes, and other utility containers
- Under, behind, or between your seats
- In your seat Pocket
- Anywhere you have bit of extra space

SPL035	SpillBoa Cubby Kit	(1) 5" x 25'	7 Gal	1	4.5 lbs	24
SPL033	SpillBoa Bale	(4) 5" x 25'	28 Gal*	4	18 lbs	22

*Total absorption of kit. 7 Gal per SpillBoa

Transformer Bag Spill Kit

- Multiple layers and cord reinforcement resist punctures and tears.
- UV stabilization protects the material from degradation during extended exposure to sunlight
- Cold-crack resistance eliminates failures in extremely cold temperatures.
- Flexibility and light weight allow for easy handling and quick installation.
- Meltblown polypropylene pads are included in each kit to absorb any leaked dielectric fluid.

MBT Transformer Bag Spill Kit

Item #	Description	Bag Size	Kits/box	Box/Pallet
MBT-TBK-2556	25 x 56 Transformer Bags	25" x 56"	20	16
MBT-TBK-4080	40 x 80 Transformer Bags	40" x 80"	12	16
MBT-TBK-4672	46 x 72 Transformer Bags	46" x 72"	10	16
MBT-TBK-6090	60 x 90 Transformer Bags	60" x 90"	8	16
MBT-TBK-8490	84 x 90 Transformer Bags	84" x 90"	6	16
MBT-TBK-112x2	112 x 112 Transformer Bags	112" x 112"	4	16
MBT-TBK-224x2	224 x 224 Transformer Bags	224" x 224"	2	16
MBT-TBK-COVER	Transformer Cover	46" x 35" x 30"	8	16

Each kit includes (2) Meltblown Polypropylene pads that together absorb 2.5 gallons.

SECONDARY CONTAINMENT

Spill containment drum pallets and sheds

Secondary Containment

Spill Containment

A proper spill containment plan can help create a safe and productive work environment for your employees. MBT spill containment products help to prepare and protect any facility with solutions for unexpected, critical accidents. Absorbent storage centers and MBT spill kits provide fast-response solutions for unplanned spills of oils, solvents, coolants and other fluids. MBT drains, spill decks, berms, pans and pallets also ensure facility safety by catching, controlling and containing unexpected leaks, drips and spills.

Our spill containment products are designed with your employees' safety and efficiency in mind. A proper spill containment plan can help create a safe and productive work environment for your employees. Spill containment products help to prepare and protect any facility with solutions for unexpected, critical accidents. Drains, spill decks, berms, pans and pallets also ensure facility safety by catching, controlling and containing unexpected leaks, drips and spills.

- Poly spill pallets and decks
- Steel spill pallets and containment shelters
- Containment berms
- Drain seals

Poly Spill Pallets

Steel Pallets

Containment Sheds

Applications:

Spill Containment decks and pallets feature:

- **Solid Construction:** Injection molding ensures exceptional durability and consistent specifications
- **Standard Lip and Grate Heights:** Manufactured to standard heights to allow uninhibited movement
- **Nestable:** Remove the grates and stack for storage
- **Grate Pins:** Pins keep the grates in place during use and prevent the walls from bulging
- **Interchangeable Grates with Large Openings:** Removable grates can be used with spill decks or spill pallets (even between two and four drum pallets)
- **Forklift Friendly:** Easily use your forklift to re-locate your decks or pallets and drums

Spill Containment Selection Guide

MBT spill decks and pallets provide excellent secondary containment for drums. Look at our easy to use selection guide to determine the right deck or pallet to meet your needs. Whether you need a taller

pallet with greater sump capacity or a lower profile spill deck for easy loading and unloading, MBT has what you're looking for to keep your workplace clean, safe and in compliance.

1. Determine the type of pallet or deck you want.

- Polyethylene
- Steel

2. Determine the application type.

- Taller spill pallets offer greater sump capacity
- Lower profile spill decks provide easy access for loading and unloading of drums

3. Determine the amount of liquid to be contained.

- 20-40 gallons
- 40-60 gallons
- 60-80 gallons

Spill Containment Selection Chart

Product	Description	Sump Capacity	Height	Load Capacity	Item No	Pg No.
High Density Polyethylene Spill Pallets for safe storage of IBC's and drums						
2 Drum Poly Spill Pallet	Durable Polyethylene two drum storage pallet	58 gallon	17"	2000 lbs	2DR-SP	38
4 Drum Poly Spill Pallet	Large poly four drum storage pallet	83 gallon	17"	4000 lbs	4DR-SP	38
2 Drum Poly Spill Deck	Low profile polyethylene two drum storage deck	22 gallon	6"	2000 lbs	2DR-SD	38
4 Drum Poly Spill Deck	Large low profile poly four drum storage deck	40 gallon	6"	4000 lbs	4DR-SD	38
IBC Spill Pallet	Poly IBC storage pallet with drain	385 gallon	23"	8000 lbs	IBC-SP	38
IBC Spill Pallet	Poly IBC storage pallet without drain	385 gallon	29"	8000 lbs	IBC-SPD	38
Steel spill pallets and sheds for safe drum storage						
2 Drum Steel Spill Pallet	Durable Steel two drum storage pallet	66 gallon	14"	600PFS	SSCP-2	39
4 Drum Steel Spill Pallet	Large Steel four drum storage pallet	66 gallon	10"	120PFS	SSCP-4	39
2 Drum Steel Spill Deck	Low profile steel two drum storage deck	66 gallon	5'	350PFS	SSCD-2	39
4 Drum Steel Spill Deck	Low profile steel four drum storage deck	77 gallon	5'	350PFS	SSCD-4	39

SECONDARY CONTAINMENT

Poly spill containment drum pallets and sheds

Poly spill pallets to meet container storage regulations

Our spill pallet is specially constructed to support heavy loads and designed to be easily used and transported. Its 100% Polyethylene construction makes it compatible with a wide range of chemicals, while its low-rise, 11 inch walls give more accessibility for pouring.

100% Poly Spill Pallet

Bright, safety yellow spill pallets get drums off the floor.

- Complies with government containment regulations
- Capacity up to 83 gallons of containment
- 2-drum & 4-drum models

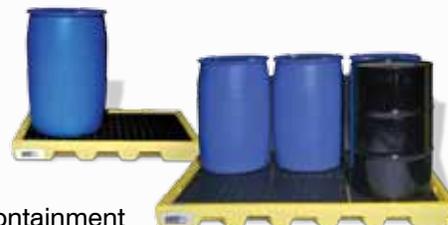

Poly Spill Pallets

Item #	Description	Size (W x L x H)	Sump Cap.	Load Cap.	Pkg Wt
2DR-SP	2 drum pallet	53.5 x 29 x 17	58 Gal	2000 lbs	57 lbs
4DR-SP	4 drum pallet	50 x 50 x 17	83 Gal	6000 lbs	84 lbs
SPR-P	Pallet ramp	68 x 30.8 x 12.5	-	-	65 lbs
SPR-PE	Enternder	29.5 x 8.5 x 5.5	-	-	6 lbs

Low Profile Spill Deck

Low profile spill deck platforms make loading and unloading easier.

- Complies with government containment regulations
- Capacity up to 40 gallons of containment
- 2-drum & 4-drum models

Poly Spill Decks

Item #	Description	Size (W x L x H)	Sump Cap.	Load Cap.	Pkg Wt
2DR-SD	2 drum deck	53 x 28.5 x 6	22 Gal	2000 lbs	34 lbs
4DR-SD	4 drum deck	53 x 53 x 6	40 Gal	4000 lbs	69 lbs
SPR-D	Deck ramp	46 x 25.4 x 6.1	-	1000 lbs	30 lbs

Economical And Portable Spill Containment For IBCs

The IBC Spill Pallet provides economical and portable spill containment for IBCs, tanks and other large containers. A 385-gallon containment sump helps meet EPA and SPCC spill containment regulations.

All polyethylene construction provides excellent chemical compatibility and forklift pockets makes it easy to move.

- Integrated pail holder for quick and easy dispensing.
- All polyethylene construction offers excellent chemical resistance and will not rust or corrode.
- Forkliftable allowing convenient positioning to desired locations.
- Removable grates facilitate loading for easy clean up.
- Small footprint - 56.75" x 56.75" unit requires minimal floor space.
- 385-gallon sump capacity meets SPCC and EPA Container Storage and Spill Containment Regulations 40 CFR 264.175

IBC Pallets

Item #	Description	Size (W x L x H)	Sump Cap.	Load Cap.	Pkg Wt
IBC-SP	IBC Pallet - No Drain	73 x 80.5 x 29.5	385 Gal	8000 lbs	262 lbs
IBC-SPD	IBC Pallet - w/ Drain	73 x 80.5 x 29.5	385 Gal	8000 lbs	262 lbs

1 pallet per unit. 1 unit to pallet.

Steel spill pallets to meet container storage regulations

Steel Spill Pallet

Spill pallets get drums off the floor. MBT steel containment pallets are the strongest containment pallets on the market. They meet NFPA 30 & NFC 2010 spill control requirements for noncombustible devices. Steel spill containment pallets will NOT melt under fire exposure or fail from normal material handling activities.

- Complies with government containment regulations
- Capacity up to 66 gallons of containment
- 2-drum and 4-drum configuration

Steel Spill Pallets

Item #	Description	Size (W x L x H)	Sump Cap.	Load Cap.	Pkg Wt
SSCP-2	2 drum spill pallet	54 x 34 x 14	66 Gal	600 psf	205 lbs
SSCP-4	4 drum spill pallet	54 x 50 x 10	66 Gal	1200 psf	270 lbs
1 pallet per unit. 1 unit to pallet.					

Steel spill deck provide low profile flammable storage.

Steel Spill Decks

Low profile steel Spill Decks are a durable and valuable addition to any dispensing work space. They connect easily for a customized, fully contained area, while the galvanized steel construction resists corrosion.

- 4'x5' footprint
- Can be used freestanding or with other decks
- Mounting and anchoring hardware available
- Additional sizes and depths available upon request
- Forklift traffic version available upon request

Steel Spill Decks

Item #	Description	Size (W x L x H)	Sump Cap.	Load Cap.	Pkg Wt
SSCD-2	2 drum spill deck	49 x 61 x 5	66 Gal	350 psf	432 lbs
SCD-4	4 drum spill deck	61 x 61 x 5	77 Gal	350 psf	513 lbs
1 pallet per unit. 1 unit to pallet.					

SECONDARY CONTAINMENT

Drain seals keep debris from entering drains

Drain seals stop spills from going down the drain

Our drain seal is a valuable addition to any emergency response plan, spill kit or stormwater management program. This storm drain cover is constructed with a flexible, non-absorbing material and reinforced tear-resistant mesh, the drain seal is designed to quickly and effectively seal a drain in an emergency. Its mesh interior is sandwiched between layers of polyurethane, which increases durability and gives it the flexibility to deform and seal off most drains.

Poly Drain Seal

Durable poly drain seal provides quick stormwater protection.

- Both sides are designed to effectively seal most drains (no top or bottom).
- Resists oil, water and most aggressive chemicals, cleans with soap and water.
- Optional Ultra-Drain Seal Wall Mount Units allow a “grab and go” response to any spill.

Drain Seals

Item #	Description	Size (W x L x H)	Pkg Wt
DS-1818	Drain seal	18" x 18" x 1/4"	7 lbs
DS-2424	Drain seal	24" x 24" x 1/4"	10 lbs
DS-3636	Drain seal	36" x 36" x 1/4"	15 lbs
DS-4848	Drain seal	48" x 48" x 1/4"	19 lbs

Durable and flexible poly drain seal provides fast deployment for quick emergency response.

Spill berms provide reliable spill containment.

The Collapsible Wall Berm

The collapsible wall berm features an economical design that sets up quickly and provides secure containment. PVC sidewall assemblies provide sturdy support for the containment area but are quickly lowered for easy access. Great for spill containment of large quantities of drums, vehicles, frac tanks or other larger containers.

- Rugged PVC sidewall assemblies for sidewall support. Simply swivel the “feet” of the PVC supports to lower or raise the sidewalls in just seconds!

- Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175.
- Durable materials provide years of service and excellent chemical compatibility.

Collapsible Wall Containment Berms

Item #	Size (W x L x H)	Containment Capacity	Pkg Wt
48-661-BK-SU	6' x 6' x 12"	269 gal	37 lbs
48-10101-BK-SU	10' x 10' x 12"	748 gal	60 lbs

Foam wall berms capture leaks and spills from vehicles

Foam wall containment berms

Snap-Foam Berm allows for continual drive in and out without ever having to modify the sidewalls!

The Foam Sidewall system consists of (PE) polyethylene foam encased in a fuel and chemical resistant membrane cover. The end sidewall design incorporates high strength connectors and a system that facilitates automatic entry and exit without assistance.

The foam logs utilized with this this system ensure that tankers may move at will. The Snap-Foam Berm is manufactured and tested to the most stringent quality controls. The Snap-Foam Berm is made of the highest quality material in the industry. Custom sizes available, standard color is black.

- True drive in/drive out capability
- Easy-to-assemble design permits
- immediate response
- Compact storage and transport
- Air-lance tested containment welds for maximum product performance
- Foam end caps form system to snap end sidewalls back to their upright position
- Cold rated to -30°F/-34°C
- Lap joint welds for maximum strength
- Individual serial numbers
- CAD designed and cut components
- Fuel/chemical resistant containment area
- Custom sizes and special materials available

Foam Wall Containment Berms

Item #	Size (W x L x H)	Wt. (Lbs.)	Spill Capacity
48-10261-BK-SF	10 x 26 x 1	142 gal	1,944 Gal
48-12361-BK-SF	12 x 36 x 1	198 gal	3,231 Gal
48-14541-BK-SF	14 x 54 x 1	252 gal	5,654 Gal
48-12601-BK-SF	12 x 60 x 1	293 gal	5,385 Gal
48-14851-BK-SF	14 x 85 x 1	475 gal	8,901 Gal
